II WORK

(A) NEW BYE-LAWS AND RULES FRAMED OR EXISTING ONES AMENDED ;-) There were no Bye-laws or Rules existing at the beginning of the year and no bye-laws or rules were framed during the year under -----

report

(b) Meetings and Attendance :- Under the old constitution , the District Board held one special and one ordinary meeting4. The special meeting was held for the purpose of deputing members to the Dasara Representative Assembly of 1919 After the District Board was reconstituted, four ordinary and one special meetings ~~was~~ were held, the latter for the purpose of considering the draft budget estimates of the Board for the year 1920-21 On the whole, the average attendance of non-official members was 24-8 as against 14 in the previous year The increase in the number of non-official members on the Board according to the new constitution accounts for the increase in the average attendance as compared with that of the previous year

The several Taluk Boards held in all 77 ordinary, 5 adjourned and 27 special meetings The prescribed number of ordinary meetings viz 6 was not held by the Taluk Boards of Heggadadevankote Gundlapet, T Narasipur, Seringapatam and Nanjangud The Taluk Board of Seringapatam held the lowest number of meetings viz 3 The average attendance of non-official members was lowest viz 3-8 in the case of Hunsur Taluk Board

The Finance Committee consisting of 4 non-official members was constituted in January 1920 and met thrice in the year The average attendance was 2-6

(c) Remarks about the interest evinced by the non-official members :- The attendance of the non-official members of the District Board was fai

the members evinced interest in the discussions on the various subjects that were placed before the Board

(d) Measures initiated or development proposed or carried out during the year :- There are no remarks to offer on this point

(e) Working of Village Panchayets :- The total number of Village Panchayets which were actually in working order was 84 Viz the old union Panchayets which were converted into Village Panchayets under the Local Self Government Scheme

The prescribed number of meetings viz 12 was held by the Village Panchayets of

Kamplapur Bettadapur	Hunsur Taluk
Kudlur Kuderu	Chamarajanagar Taluk
Bellur	Nagamangala Taluk

Thefolowing Village Panchayets held only one meeting :-

Manchanahally Kuppe Bellur	Yedatore Taluk
Mullur	Heggadadevankote Taluk
Kalkuni	Malavally ~~T Narasipur~~ Taluk

No meeting was held by six Village Panchayets in the Yedatore Taluk, one Panchayet in Heggadadevankote Taluk, two Village Panchayets in the Gundlapet Taluk, five Village Panchayets in the Seringapatam Taluk and one panchayet in the Malavally Taluk

The above facts indicate that the work of these bodies was on the whole not satisfactory in spite of the the fact that each Village Panchayet has its Chairman now. The Presidents of the Tal

Boards concerned will be asked to investigate the matter and find out what facilities are required for the better working of these local bodies

It may be stated here that the newly formed Village Panchayets have not yet begun their work in the majority of cases The matter will be enquired into and necessary action taken to help --- these bodies in making their administration useful and successful

III FINANCIAL POSITION

(a) Income :- The year opened with a balance of Rs 622133/- at the credit of the District Board The total income under all service heads aggregated Rs 345357/- as against Rs 318586/- in the previous yearm shewing a net increase of Rs 27072/- which was mainly due to (1) adjustment of deposit items (2) larger realisations under local cesses including railway cess (3) better collection under Mohatarfa in non-Village Panchayet ~~arrears~~ areas

The income under railways cess was Rs 60968/- as against Rs 50246/- in the previous year and this does not form an ~~integral~~ integral part of the District Board Revenue Owing to better collection of Land Revenue, the allotment under local cess was Rs 112818/- viz Rs 13523/- more than the allotment for the previous year The income from local cess on Excise etc , was Rs 41661/- as against Rs 52526/- for the previous year As the latter includes also a portion of the income for 1917-18 taken credit during 1918-19 ther was an apparent decrease in the income for 1919-20 The increase under (1) Tolls (2) Sale proceeds of stray cattle (3) Sale proceeds

of lands and (4) Sale of manure was due to the adjustment of deposit amount by transferring the latter to the proper head of account There was no grant from State Funds to the Drinking Water-Wells Fund and this accounts for the variation between the receipts for the year 1918-19 and 1919-20

(b) Expenditure :- The total expenditure during the year was Rs 224263/- as against Rs 181978/- in the previous year, showing a net increase of Rs 42285. This net increase was mainly due to (1) larger outlay under "A Public Works" (2) the payment of grain and local allowances to District Fund employees (3) Payment of arrears of the previous years in respect of travelling allowance of the members of Taluk Boards and commission due to Shangogues and Patels for collecting taxes in Union Panchayets (4) Payment of the cost of disinfectants supplied to the several Talukas and the District Sanitary Officer (5) the debit of the entire cost of vaccination to District Funds in accordance with the standing orders of Government on the subject

(c) Closing balance :- The balance at the credit of the District Board at the end of the year 1919-1920 was Rs 752933/- including Rs 152237/- being the total Railway Cess collected during the years 1917-18, 1918-19 and 1919-20

(d) Allotment of funds among Taluk Boards and Union Panchayets and their adequacy :- The several budget grants were treated as common to all local Boards and the expenditure incurred by these Boards was debited to these grants No allotment of funds

was separately made either to Taluk Boards or Village Panchayets

(e) Demand, Collection and balance :- The current demand under the several heads of income was Rs 352358/- as against Rs 328503/- in the previous year showing an increase of Rs 3855/- which was mainly due to larger income under Railway Cess and under Mohatarfa in non-village Panchayet areas Th collection on account of the current demand was Rs 333652/- The arrears outstanding at the beginning of the year amounted to Rs 8809o/- and the collection towards the arrears was only Rs 12005/- which gives a small percentage of 13·6 The balance that remained uncollected at the end of the year was Rs 94794/- The heaviest arrears viz Rs 22533 relate to Nanjangud Taluk

(f) Fresh imposts and variations in the rates of fees and tolls etc :- There were no fresh imposts and variations in the rates of fees etc

(g) Loans :- No loans were raised during the year under report

IV PUBLIC WORKS

A Public Works :- The total outlay under this head was Rs 99329/- including the cost of establishment and tools and plant The sum of Rs 1667. being the balance of the expenditure incurred in June 1919 was claimed and a crossed cheque issued therefor in the year under report Excluding this expenditure of the previous year the actual charges relating to 1919-20 amount to Rs 82662 including Rs 40/- on account of maintaining the Akkihebbal-Bherya Road which is under the supervision of the

Executive Engineer No/ V Yedatore Division The total claim made by the Executive Engineer, Mysore Division for the year 1919-20 was Rs 87562/- and the actual amount for which crossed cheques were issued was Rs 82616/- The balance was placed under objection and was not adjusted before the close of the year as necessary information was not furnished by the Executive Engineer in respect of all the items placed under objection. The chief items placed under objection were (1) Improving the -- Forest Road between Hondrabal and Kyathedevaragudi As this road is not a District Fund Road the outlay on account of this road was disallowed (2) Pay of the watchman attached to the Diddapur Lodge The Executive Engineer has been charging the pay of the watchman to the provisions under " A Public Works" As this expenditure is not a legitimate charge upon public works, this item has been placed under objection The pay has to be drawn separately in a pay bill form and the cost debited to the proper head of account viz " D 4 Accomodation for -- travellers" The authority for entertaining the watchman has not been furnished by the Executive Engineer (3) Want of sanction of the District Board to certain estimates (4) Surveying Roads As details of the roads surveyed with authority for the same had not been furnished Hence the outlay was placed under objection The matter is still under correspondence and the Executive Engineer has not yet given a final reply to the objections. The expenditure in June 1920 was at first estimate to be Rs 30000/- and this amount having been claimed, a crossed cheque was issued therefor But the

actual outlay in Jun 1920 being Rs 32965/- the -- balance of Rs 1965/- remained unadjusted at the end of the year of report and this has to be paid in the current year

The total length of District Fund Roads under " Repairs " is 651½ miles of which 470 miles are metalled and the remainder unmetalled Roads

B Public Works executed by the Civil Department

The total expenditure under this head was Rs 11553/- against a budget grant of Rs 50000/- The lapses amounted to Rs 38447/- which gives a percentage of 76·8 as against 66·9 in the previous year Owing to the existence of a large number of incomplete works pending at the beginning of the year and in view of the fact the progress was not satisfactory estimates were not sanctioned in respect of the majority of budgeted works for 1919-20 This check was exercised so that all the incomplete works might be pushed on to completion This circumstance accounts for the unavoidable large lapses of budget provisions The Presidents of Taluk Boards will be asked to see that all incomplete works are completed and new works commenced according to a carefully prepared programme in order to minimise lapses in the current year

The number of works which remained incomplete at the beginning of the year was 106 requiring an appropriation of Rs 18799/- The number of new works sanctioned during the year was only 49 Out of the incomplete works 50 works were completed and out of the new works 13 works were completed The total number of works that remained incomplete on 30th June 1920 was 92

(b) Condition of roads and communication with reference to the funds aldotted therefor :- The mileage allotments of some of the important roads maintained by Public Works Department was raised during the year resulting in an increase of -- Rs 18000/- on account of annual maintenance charges It was reported in the lst year's report that the general condition of t e District Fund Roads was poor and that it was disgraceful in some cases The Government in their ~~exam~~ general review (G O No R 11830-43/1 B 57-1~-26 dated the 9th April 1920) have directed that the mileage rates should be suitably increased to ~~keep~~ Keep the roads in a satisfactory condition The matter is under correspondence with the Executive Engineer It may be stated here that unless the District Board has its own Engineering Establishment, it cannot be hoped that the Public Works Department could give their undivided attention to this portion of their work without prejudice to their legitimate work By keeping a separate establishment for the purpose the Board can exercise a proper check over the expenditure of their ~~expenditure of their~~ money inasmuch as the establishment will be directly responsible to the Board It ~~is requested~~ to request that Government may be pleased to pass early orders in the matter of entertaining a separate District Fund Engineering Staff in accordance with the scheme sent up from this office for sanction In addition to the annual repairs there was a total outlay of Rs 15605/- on account of the special repairs of the undermentioned roads

1	T Narasipur-Chamarajanagar Road	2939
2	Gundlapet - do	6443
3	Frazerpet-Hadya-Bettadapur Road	421

tion payable by the ryots has been reduced from one half to one third of the estimated cost and much discretion has been given in the matter of waiving contribution in cases in which the villagers are poor and belong to Panchama class With these concessions it is hoped that better progress may be acheieved in the current year Th continuance of the services of the temporary Well Overseer and the peon attached to him was sanctioned by Government and the cost incurred on account of this temporary establishment was Rs 1660/- The Musto Patent Boring Plant which was purchased during ~~the~~ 1917-18 was not tried any where during the year under report The ~~paint~~ plant being a large one there is much difficulty in transporting ot freely from one place to -- another Heavy expenditure is involved for conveyance and for fixing and coupling the parts The Well Overseer has furnished a programme for its use in the current year and the results of its working will be watched
